

ZANDILE CUBAN MAYISELA

BSc Information Technology Student

✉ mbarlycuban@gmail.com | ☎ 067 827 2049 | 📍 Ivory Park, Midrand, Gauteng

PROFESSIONAL PROFILE

Motivated and detail-oriented final-year BSc Information Technology student at North-West University, graduating in 2027, with a strong academic record (72% average). Passionate about software development, database systems, and mobile application development. Demonstrated ability to design, build, and deliver end-to-end technology solutions through diverse academic projects. Eager to contribute technical skills and a strong drive for innovation to your company..

CYBERSECURITY CERTIFICATIONS

Introduction to Cybersecurity — [Cisco Networking Academy](#) | April 2025 ★ **Globally Recognised**

Introduction to Cyber Security — [Simplilearn SkillUp](#) | May 2025

Cybersecurity: Understand Threats and Prevent Attacks — [Alison \(CPD Certified\)](#) | 2025

Network Security Management Basic Training — [Chongqing Polytechnic University of Electronic Technology & China Communications Industry Association](#) | December 2024

EDUCATION

BSc in Information Technology | [North-West University](#) | 2023 – 2026 (Expected)

- Cumulative Average: 72%
- Relevant coursework: Cybersecurity Fundamentals, Computer Networks, Database Systems, Software Engineering, Object-Oriented Programming, Mobile Application Development

TECHNICAL SKILLS

Cybersecurity: Threat identification, network security, secure authentication, data protection, vulnerability awareness

Programming Languages: Python, Java, C#, C++

Mobile Development: .NET MAUI

Database Technologies: SQL, Oracle SQL Developer, SQLite

Networking Tools: Cisco Packet Tracer

Version Control: GitHub / Git

Concepts & Practices: Object-Oriented Programming (OOP), Relational Database Design, ERD Modelling, Secure Authentication, File Handling, Memory Management

ACADEMIC PROJECTS

MyAuthApp – Mobile Authentication Application | [Academic Project](#) | 2025

Developed a cross-platform mobile authentication application using .NET MAUI and C#, demonstrating secure software development practices.

- Implemented a full user authentication flow including registration, secure login, and password recovery.
- Applied BCrypt.Net for password hashing, ensuring secure storage of user credentials in a local SQLite database.
- Designed a clean, structured UI with navigation between Login, Register, Forgot Password, and Home screens.
- Enforced input validation throughout the application to improve data integrity and user experience.

Rosemary Insurance Policy Database System | [Academic Project](#) | 2025

Designed and implemented a relational database system to manage client and policy data for an insurance business context.

- Created a fully normalised relational database using Oracle SQL Developer, eliminating data redundancy.

- Implemented entity relationships using primary and foreign keys to ensure referential integrity.
- Produced an Entity Relationship Diagram (ERD) prior to implementation for structured database planning.

Patient Management System | [Academic Project](#) | 2024

Built a C++ console application for managing patient records in a healthcare environment, focusing on OOP principles and efficient memory management.

- Implemented full CRUD functionality — add, update, delete, search, and display patient records.
- Used smart pointers (`unique_ptr`) for safe memory management, preventing memory leaks.
- Integrated file handling (`ifstream/ofstream`) for persistent data storage across sessions.

Computer Network Simulation | [Academic Project](#) | 2026

Simulated and configured computer networks using Cisco Packet Tracer to develop practical networking knowledge.

- Designed network topologies with routers, switches, and end devices.
- Configured IP addressing schemes and tested end-to-end device communication.
- Diagnosed and resolved network connectivity and configuration faults.

EXPERIENCE & EXTRACURRICULAR ACTIVITIES

Internet Café Technical Assistant | [Community Member's Business, Ivory Park](#) | *School Holidays*

- Provided hands-on IT support to customers, assisting with computer usage, internet access, and basic troubleshooting.
- Developed practical customer service and communication skills in a fast-paced environment.

Event Organiser – Final Year Student Event | [North-West University](#) | 2023

- Volunteered in the planning and coordination of a final-year student event, demonstrating initiative and teamwork.
- Managed logistics, communication, and on-the-day coordination with fellow students and faculty.

Geekulcha Participant | [Various](#) | 2023– 2024

- Participated in hackathons, collaborating in teams to develop innovative technology solutions under time pressure.
- Strengthened skills in rapid prototyping, problem-solving, and cross-functional team collaboration.

KEY ATTRIBUTES

- Strong analytical and problem-solving skills with experience across multiple programming paradigms.
- Demonstrated ability to learn new technologies quickly and apply them in project settings.
- Collaborative team player with leadership experience through volunteering and hackathon participation.
- Community-oriented, with practical experience supporting technology access in underserved environments.
